

DS100 PA SCREEN SPECIFICATION

GENERAL INFORMATION

- The Daytona DS100 Mobile Stage can, if specified come with it's own dedicated PA Wings.
- The PA Wings may also be specified with a PA Screen as an option. This PA Screen is a single sheet of perforated material that will let the sound from the PA out, but go some way to stopping the weather from getting in.
- The standard PA Screen is one colour, black. A full colour screen may be ordered as an option.
