

DAYTONA

STAGE HIRE

DS60 ACCESS STEPS SPECIFICATION

GENERAL INFORMATION

- The Daytona DS60 mobile stage has 2 entrance/exits to the stage/backstage areas.
- Each of these access points is served by their own set of access steps.
- Both sets of steps are identical and consist of 7 treads, which are 725mm wide. They both have handrails for artist safety and sit on two fully adjustable feet.

STANDARDS

- The steps are constructed from 6082-T6 grade aluminium alloy which conforms to BS EN 755-2 : 1997 Aluminium and aluminium alloys and BS 2901-4 : 1990 Filler rods and wires for gas shielded arc welding.

DIMENSIONS

- The height from ground to top step is 1.4m (when stage is erected on level ground)
- The overall height from ground to top of handrail is 2.4m
- The tread width is 725mm
